HARDWOOD FLOORING

# Wire Brushed

C O L L E C T I O N

*Wire Brushed floors are another unique and beautiful option for a textured floor.*

*During manufacturing, these floors go through a rotating wire brush that removes the sapwood or softer spring grain of the wood, highlighting the natural richness of each species. These floors tend to hide dents and scratches extremely well and everyday wear is blended in. Wire brushing is very conducive to achieving 2 tone floors, giving you a European style and look.*
